## AUTUMN-PLANTED NATIVES BLOOM WELL THE FIRST YEAR

Nature endows the rare native plants of North Carolina with a degree of hardiness not often possessed by the same varieties grown in other parts of the Blue Ridge. Scores of shy wildings—Violas, Orchids, Lilies, Harebells, Feather Fleece, Closed Gentian—can be furnished in quantity from my nurseries in the mountains. Rhododendrons, Azaleas, Laurel, Leucothe, and other native shrubs from the "Land of the Sky" will carry color and fragrance to lowland gardens.
